Situation Report

Severe Storms

March 17, 2006 12pm

CURRENT UPDATES WILL BE IN BOLD-FACE TYPE

Situation:

On March 16, President Bush declared 14 Missouri counties to be part of a federal disaster area from storms that hit the state March 11-13. The President authorized the Federal Emergency Management Agency (FEMA) to make disaster aid available under Individual Assistance programs (assistance for individuals, homes, and businesses), Public Assistance programs (assistance to state and local governments, and qualifying private, non-profit agencies to offset emergency related costs), and the Hazard Mitigation Grant Program (assistance to state and local government for projects to reduce the impact of future disasters).

Counties designated for Individual Assistance include the following: Christian, Hickory, Johnson, Monroe, Perry, Pettis, Randolph, Ste Genevieve, and Saline. Residents and business-owners with uninsured or underinsured storm-related damages in those locations should register with FEMA at 1-800-621-FEMA (3362). Locations for Disaster Recovery Centers (DRCs) will be announced in the coming days. The DRCs offer persons affected by the disaster a facility where they can get information on a wide variety of state and federal disaster relief programs.

Counties designated for Public Assistance (Category A-Debris Removal & Category B-Emergency Protective Actions) include the following: Bates, Christian, Howard, Jefferson, Monroe, Montgomery, and Washington. A series of briefings will be organized within the coming week for potential applicants to learn about the Public Assistance program and the documentation needed for assistance with extraordinary emergency expenses associated with the disaster. Briefing times and locations will be made available.

The counties included in the declaration are consistent with the core counties originally requested by the Governor based on initial reports to the State Emergency Operations Center (SEOC) immediately following the storm. Additional counties will be requested TODAY to be included in the disaster area based on data generated by the joint SEMA/FEMA damage assessments that have been conducted this week.

Additional SEMA/FEMA joint damage assessments were completed in five additional counties (Benton, Howard, Johnson, St Clair, Stone,). Joint damage assessments are scheduled today for 13 additional counties (Boone, Cedar, Cooper, Dunklin, Greene, Henry, Iron, Jackson, Lafayette, Newton, Phelps, Ray, Stoddard) Joint damage assessments were completed in 25 counties (Bates, Carroll, Cass, Chariton, Christian, Hickory, Jefferson, Lincoln, Marion, Mississippi, Monroe, Montgomery, Morgan, New Madrid, Perry, Pettis, Putnam, Randolph, Saline, Ste Genevieve, Scott, Taney, Vernon, Webster, Wright) earlier this week.

Federal/State Actions:

- ☐ The State Emergency Operations Center (SEOC) has been activated and is maintaining contact with local officials via daily conference calls until the situation stabilizes.

- ❑ Missouri Dept of Insurance (MDI) will be visiting with residents in affected areas to provide education on coverage available under homeowners/renters insurance policies.
- ❑ Missouri Dept of Health & Senior Services (DHSS) has dispatched a liaison to the SEOC to assist with coordination of relief efforts. DHSS staff in the Department's Situation Room are ready to provide support as needed
- ❑ Missouri Dept of Social Services has dispatched a liaison to the SEOC to assist with mass care sheltering, feeding, bulk distribution, mobile feeding and outreach responses by private and faith-based organizations. Assistance has also been provided with the resolution of housing issues for individuals and families affected by the storms. Food banks throughout the state have been contacted to determine if there is a need for the Department to provide food assistance. Managers of DSS offices in the areas affected by the storms are contacting local Emergency Management organizations in an effort to determine if there are unmet mass care or human services needs..
- ❑ SEMA issued guidance for agriculture producers on reporting damages to the US Dept of Agriculture Farm Service Administration (FSA).
- ❑ **Two FEMA liaisons continue to work in the SEOC, coordinating federal actions with state officials.**

Other State Agency and Volunteer Agency Actions:

The Disaster Recovery Partnership and MoVOAD are meeting regularly and coordinating relief efforts with their member agencies. American Red Cross, The Salvation Army, Southern Baptist Disaster Relief, AmeriCorps, and numerous human service and volunteer agencies have deployed staff and resources throughout the state to assist with recovery efforts.

AmeriCorps Volunteers are reviewing debris removal efforts via survey of all the affected counties and will reassign teams based on completion of the survey today.

On March 13, the Missouri Tornado Hotline (866-254-0140) was activated and will be staffed by AmeriCorps-St. Louis from 9am to 5pm each day to process offers of donated goods, time or money, as well as requests for assistance. **188 calls have been taken since Monday, in the following categories:**
